A-Tube Nano,
Design by Studio Italia Design

Model A-Tube Nano medium

A-Tube Nano is a suspension lamps which interprets light in its simplest form by creating a thin luminous line in the living spaces. At the lower end of the lightweight aluminium structure, a transparent methacrylate diffuser houses an LED module whose light creates a soft, welcoming atmosphere. The three sizes and seven statement finishes allow to create clusters of evocative lighting. Black cable version is also available.

The simple, linear, pin-like look of the *A-Tube Nano* suspension light is also highly sophisticated and effective. The lightweight aluminium structure with a 2 cm diameter delicately defines the atmosphere of the room in which it is featured. The small methacrylate diffuser highlights the linear look and lets the light create an accent in the living space.

A-Tube Nano medium	Light source	Structure: Metal	Diffuser: Methacrylate	Cable	Code 2700 K	Code 3000 K
