Carolina _Table lamp

The Carolina cordless, rechargeable battery lamp by Zafferano combines clean lines, practical use, and smart features in a rechargeable LED table lamp, designed to create atmosphere in any setting. Its painted aluminum structure, paired with a metal shade, gives it a bold, contemporary character—perfect for home or contract environments. With its touch control on the base, you can switch the lamp on and off, adjust brightness, and choose between three light color temperatures (2200K, 2700K, 3000K). The removable and rechargeable light module offers up to 9 hours of autonomy at full power and recharges fully in about 3.5 hours. A contact charging base is included; the USB charger is sold separately. Only the white version of Carolina is suitable for outdoor use, thanks to its IP54 protection rating. For all other finishes, indoor use is recommended despite having the same rating. Carolina is the perfect cordless lamp for those who want strong design, soft lighting, and freedom from cables.

LED | dimmable | IP65
