Flaminia _Table lamp

The Flaminia cordless, rechargeable battery lamp by Zafferano combines a warm aesthetic with functional technology in a rechargeable LED table lamp, designed exclusively for indoor use. Its classic and refined style features a pleated fabric lampshade, a painted aluminum structure, and a light module in opal polycarbonate, which diffuses a soft, enveloping glow. Equipped with touch control for switching on, adjusting brightness, and selecting the light color temperature (2200K, 2700K, 3000K), Flaminia offers an intuitive and versatile user experience. The removable light module, recharged via the included contact charging base, ensures 7–8 hours of autonomy at full power, with a full recharge in about 5 hours. The battery is replaceable, while the USB charger is sold separately. Available in elegant matte gold and bronze finishes, Flaminia is the ideal choice for those who want to create a cozy and refined atmosphere with a cordless lamp that doubles as a decorative piece.
