Pina L DESK _Table lamp

Designed by Federico de Majo, the portable Pina L Desk lamp combines aesthetics and functionality in a design object for everyday life. It is a rechargeable LED table lamp with a magnetic swivel head and touch controls on the top for switching on, adjusting brightness, and selecting the light color temperature (2200K, 2700K, 3000K). Made of painted aluminum with an opal polycarbonate diffuser, it is perfect for both indoor and outdoor use. The lithium battery pack is rechargeable and replaceable, with up to 13 hours of autonomy at full power and a charging time of about 8–9 hours via the included contact charging base. The plug-in power supply is sold separately. With its clean design and four elegant finishes, Pina L Desk brings character to desks, nightstands, workspaces, and outdoor areas.

LED | dimmable | IP65
