Royal Family Wi-Fi _Table lamp

Designed by Lucchesedesign, the Royal Family Wi-Fi cordless, rechargeable battery lamp blends refined aesthetics and innovative technology in a luminous decorative object. This LED table lamp features touch control and 2.4 GHz Wi-Fi connectivity for remote control via app, with optional offline use in standard mode. The painted aluminum structure is enhanced with hand-blown borosilicate glass elements and a prismatic polycarbonate diffuser, creating refined and atmospheric lighting effects. The dimmable LED system allows you to choose between four color temperature settings (2200K, 2700K, 3000K, 4000K) and adjust the light intensity. Equipped with a contact charging base (included), the Royal Family Wi-Fi lamp runs on a rechargeable and replaceable lithium battery, offering up to 36 hours of autonomy depending on usage, and fully recharges in approximately 5 hours. The USB charger is sold separately. With an IP65 protection rating, this lamp is also suitable for outdoor use (except for the gold leaf version, for which continuous outdoor use is not recommended). Available in matte white, titanium, and gold leaf finish, it's the perfect choice for those seeking a sophisticated, connected style—ideal for residential or contract settings.

LED | dimmable | IP65
