Soffio vase _Table lamp

Soffio Vase is a rechargeable, cordless LED table lamp that combines atmospheric lighting with the functionality of a vase in one elegant object. Its special blown glass diffuser features a double-glass construction: the inner section houses the light source, while the outer transparent layer forms a cavity that can be filled with water, flowers, or decorative elements. It's a true design piece, perfect for both residential and hospitality spaces. The touch control on the base allows you to turn the lamp on and off, adjust brightness across four levels, and select between three light color temperatures (2200K, 2700K, 3000K). The integrated electronic system ensures consistent light output and monitors battery status until fully discharged. Suitable for outdoor use (IP65 rated), Soffio Vase is available in two refined finishes: sandblasted transparent inner glass, for a diffused light effect; glossy amber inner glass, for a warmer, enveloping glow. The outer glass is always clear, and the base is finished in matte gold. Charges via included contact base; the USB chargeris sold separately. Soffio Vase is a multifunctional cordless lamp that brings light and poetry to any space with an original touch.

LED IP65
