Trilli Wi-Fi _Table lamp

Designed by Federico de Majo, the Trilli Wi-Fi cordless, rechargeable battery lamp combines smart technology, craftsmanship, and design. This LED table lamp can be controlled via app through a 2.4 GHz Wi-Fi connection, and also features touch control for switching on, adjusting brightness, and selecting the light color temperature (2200K, 2700K, 3000K, 4000K). The white painted aluminum structure is paired with a ceramic shade and base, hand-decorated in Italy, and a prismatic polycarbonate diffuser that provides pleasant, refined light. Trilli Wi-Fi also works offline, in standard mode without a Wi-Fi connection. The contact charging base is included. The lithium battery pack, which is replaceable, provides between 8 and 36 hours of autonomy depending on brightness and connection mode. Full recharging takes about 4 hours. The USB charger is sold separately. Available in three refined finishes—black, ochre, and rust ceramic elements, hand-made in Italy—Trilli Wi-Fi is the ideal choice for those seeking decorative, connected lighting with style, both indoors and outdoors.

LED | dimmable | IP65
